

PRAKHAR BENIWAL

PM Intern @ Upstox | Fintech | Product Strategy, Experimentation & Analytics
prakharbeniwal@gmail.com | +91-9602039349 | [LinkedIn](#) | [Portfolio Website](#)

Education

INDIAN INSTITUTE OF INFORMATION TECHNOLOGY, NAGPUR

2023 – 2027

B.Tech, Electronics & Communication Engineering

Professional Experience

• UPSTOX | Product Management Intern

Mumbai | Jul 2026 – Present

- **US Stocks Analytics & Instrumentation:** Mapped the end-to-end US Stocks user journey and designed its entire Mixpanel event taxonomy; defined the success metrics and what to track at each step.
- **Discovery to Delivery:** Identified a gap on the index details page by benchmarking competing brokers; wrote the PRD to surface ETFs on it, worked with design on flows, and led the engineering handover.
- **Activation Experimentation:** Designed a first-time-user activation widget (handpicked stocks + smart lists) and planned an A/B/C/D test of 4 variants against control on a ~8% activation baseline.
- **AI for Feature Adoption:** Built a Claude skill for all Upstox PMs that turns a Figma design and a value proposition into “What’s New” carousel copy, visuals, and a hand-off doc, to lift feature adoption.
- **Funnel Research:** Diagnosed a create-to-order drop-off in Screeners on Mixpanel and wrote the **Research Action Plan (RAP)** for the research team; also revamped in-app stock logos with a mapping script.

• COINCODECAP | Product Analysis & Comparison Intern

Remote | Nov 2025 – Jan 2026

- **Product Evaluation:** Evaluated 15+ emerging AI products across UX, pricing, and target audiences to surface strengths, gaps, and improvement opportunities.
- **Competitive Benchmarking:** Ran feature-by-feature comparisons across competing tools to map market positioning, product differentiation, and customer value propositions.

Product Case Studies

• WhatsApp Pay: 500M Users, ₹0 Revenue

[Live Demo](#)

- **Market Analysis:** Diagnosed WhatsApp Pay’s sub 1% share of India’s 242Bn-transaction UPI rail via a sequenced 3-cause failure analysis; benchmarked PhonePe’s 46%-share playbook to quantify a zero-MDR, ₹0-LTV monetization gap.
- **Strategy & Roadmap:** Architected a 4-bet product roadmap, sequenced wedge → habit → moat; defined a North Star metric, Monthly Active P2M Payers (MAPP).

• FamApp: 15M users, one expiry date (turning 18)

[Live Demo](#)

- **Strategic Diagnosis:** Reframed a structural churn cliff, 15M teen users defecting to rival banks, cards, and investing apps at 18, as fintech’s highest-intent upsell moment via a triangulated 5–30× ARPU step-change.
- **Roadmap & Prioritization:** Sequenced a product roadmap (Grown-Up, Independence, Credit, Invest) via RICE and Impact-Effort trade-offs; defined 30-day adult-product activation as the North Star metric.

• Zomato Group Ordering & Shared Cart

[Live Demo](#)

- **Discovery & Root Cause:** Reframed the problem from checkout to **coordination cost** via competitive teardown and anchor-persona research; ran a funnel diagnosis, isolating retention and a WhatsApp channel-mismatch as the root cause.
- **Prioritization & Business Case:** Scoped an MVP using **RICE** prioritization and impact-effort trade-offs; modeled a bottoms-up GMV/AOV business case on FY25 data, defining a primary success metric and a ≥60% cart-completion funnel target.

• ZEE5 × FIFA: Six Failures, One Constraint

[Live Demo](#)

- **Post-Mortem & Unit Economics:** Traced 6 cascading failures to one constraint; benchmarked 3 World Cup cycles and modeled a scenario-based P&L on loss-leader CAC and LTV:CAC.
- **Strategy & Retention:** Recommended contextual pricing tiers, a graceful-degradation spec, and a 48-hour crisis playbook; defined a 90-day-retention North Star.

Skills & Technical Proficiencies

- **Product Management:** Product Strategy, Discovery & Analytics, User & Market Research, Competitive Analysis, Roadmapping, GTM Strategy, KPIs, PRD Writing, A/B Testing, Wireframing, User Flows, Customer Journey, Stakeholder Management. *Tools:* JIRA, Trello, Notion, Figma, Miro.
- **Technical Proficiency:** JavaScript, Node.js, Express.js, Python, SQL, DBMS.
- **AI & Product Development:** Claude Pro, ChatGPT, Prompt Engineering, AI-Assisted Product Development.
- **Growth:** Funnel Optimization, Experimentation, SEO, Product Growth, Performance Marketing.

Positions of Responsibility

Corporate Management & Event Curation

IIIT Nagpur

- **Artist Management Lead:** Secured and managed 4 leading performers for Abhivyakti, including **Vivek Samtani**, **Rohit Singh**, **Jalosh Band**, and **Nikhil Raj**, overseeing artist outreach, negotiations, budgets, and execution.
- **Music Club Lead:** Led Crescendo Music Club, executing 5+ **flagship events**, launching **The First Note**, securing ₹2.5+ lakh worth of musical instruments and leading IIIT Nagpur’s first-ever contingent to IIT Kanpur’s Antaragni.
- **Corporate Lead:** Drove sponsorship outreach and partner acquisition as part of the corporate team that secured ₹22+ lakh in revenue from 40+ brands, supporting stakeholder engagement, sponsor pitching, and partnership execution.
