Product Case Studies

• WhatsApp Pay: 500M Users, 0 Revenue

[Quick Overview](#)

- **Market Analysis:** Diagnosed WhatsApp Pay's **sub 1% share** of India's UPI rail via a sequenced 3-cause failure analysis; benchmarked PhonePe's 46%-share playbook to quantify a **zero-MDR, 0-LTV** monetization gap.
- **Strategy & Roadmap:** Architected a 4-bet product roadmap, sequenced wedge → habit → moat; defined **Monthly Active P2M Payers (MAPP)** as the North Star metric.

• Zomato Group Ordering & Shared Cart

[Quick Overview](#)

- **Discovery & Root Cause:** Shifted the focus from checkout to coordination through a 6-platform teardown, persona research, and funnel analysis.
- **Prioritization & Business Case:** Scoped an **MVP** using prioritization and impact-effort trade-offs; modeled a bottoms-up **GMV/AOV** business case on FY25 data, defining a primary success metric and a $\geq 60\%$ **cart-completion** funnel target.

• FamApp: 15M users, one expiry date (turning 18)

[Quick Overview](#)

- **Strategic Diagnosis:** Reframed a structural churn cliff, 15M teen users defecting to rival banks, cards, and investing apps at 18, as fintech's highest-intent upsell moment via a triangulated 5–30× **ARPU** step-change.
- **Roadmap & Prioritization:** Sequenced a 4-product roadmap (Grown-Up, Independence, Credit, Invest) via **RICE** and Impact-Effort trade-offs; defined **30-day adult-product activation** as the North Star metric.

• ZEE5 × FIFA: Six Failures, One Constraint

[Quick Overview](#)

- **Post-Mortem & Unit Economics:** Traced 6 cascading failures to one constraint; benchmarked 3 World Cup cycles and modeled a scenario-based P&L on loss-leader **CAC** and **LTV:CAC**.
- **Strategy & Retention:** Recommended contextual pricing tiers, a graceful-degradation spec, and a 48-hour crisis playbook; defined a **90-day-retention** North Star and a 2026-CAC→2030-LTV lifecycle.
